TIMELY TOPICS

That "decidedly cold weather" did not materialize, a fact which nobody is disputing very much.

The weather "people" are having their annual jangle now, and have taken on their text that thunderstorm we had last week. One gentleman, who has kept pretty close watch on the weather for a long time, says that Unadeltowners enjoyed six months' frost. Not all at once, as mentioned by him, but for six months after that storm we were liable to have frost any night, so people who plant early vegetables had better have arranged to put on them every evening after the sun goes down. However, all signs fall in by weather. Chances have come and gone and the bear didn't see his shadow, which, as everybody knows, means a short winter. So far, of course, we may say that the bear couldn't see anything after the Chief had shot him, but that's only buying the question. The fact remains that there was no snow on Chaudiere city, which means that, instead of two months, the grass will be green as usual here.

The good people of Belleville, old and young, are nowadays greatly "cramped" up in their enjoyment of hockey. Charming home from church last night, the writer heard an amateur basketball game between two members of the rising generation, which contained some striking features, to say the least.

"The Winnipeg would have won," said one, "any Canadian got his back broken. The played two beam after that. Not, of course, couldn't play his game." "The Winnipeg should have brought Ernie Long with them, said the other, "he's a swift player."

"Ah, go on," said the first speaker, "Long went to London, England, and played for money, and they won't let him play again for four years."

San Domingo Government to Firm on Others.

San Domingo, Feb. 2.—United States Minister Powell and a representative of the Dominican Government signed a protocol providing that the matter of the disputed claims of the San Domingo Improvement Company of New York be referred to international arbitration, and that the company should suspend the improvement company the sum of \$10,000 for all the claims of the company. The conclusion of arbitration.

Back of the Cough

There's more to a cough than the tickling sensation in the throat. There's a cold behind that and a weak spot to be strengthened.

Cough mixtures get as far as the tickling sensation in the throat; that is where their work stops. They may relieve the cough, but they do not cure the cold and certainly will not build up the system. Their action is therefore merely local and of necessity very limited.

Scott's Emulsion does not stop at the throat. It goes that too, but its mission is beyond that. It not only cures the cough, but it cures the cold which is back of the cough. It searches out the real cause of the trouble and corrects the wasting and weakening conditions. In its passage through the body it distributes strength to the worn out tissues, feeds the blood purges and cleanses up the body. There is nothing better than Scott's Emulsion to build up a run down system after a cold.

We will send a sample free to anyone on request.

ALLIES ABOUT THE PROPOSALS OF VENUE.

French Chamber President—A Demand Made for Equality of Treatment.

Caracas, Feb. 2.—In reply to Minister Stoen's inquiry as to what Venezuela means to do regarding the demand for preferential treatment made by the allies, President Castro has telegraphed: "The Venezuelan Government desires equal treatment for all the creditor nations in Europe and America, keeping in mind, in addition, the diplomatic considerations and inter-allied stipulations." The French Legislature has notified the Venezuelan Government that in virtue of the execution of the law of 1882 was allowed to collect directly a part of the interest of the foreign loans in Venezuela as a guarantee for her diplomatic position along with the previous revolutions. France, it is said, recognizes the right of the creditor nations to the exercise of this right on condition that the interest on the debt should be regularly paid. As this payment has not been made France, without asking the satisfaction of Germany, England and Italy, intends to send a fleet of direct collection. The French Charge d'Affaires Chatelet has sent a note to the Foreign Minister, and has twice called on President Castro to stand, in view of the situation, to review her rights, and is considered as an enemy by the attitude adopted by the allied powers.

Washington, Feb. 2.—It developed Saturday that the annexation of the allied powers in the Venezuela matter has not been immediately presented to the allies. The annexation of the allied powers has not been immediately presented to the allies. The annexation of the allied powers has not been immediately presented to the allies.

Knowing the consequences that were to follow the presentation of this answer, the representatives of the allies had taken themselves the responsibility of withholding the notes of their Government from the allies. THE FRENCH ARMY.

Deputies say it should be Maintained on a War Basis.

Paris, Feb. 2.—The discussion of the army and the Chamber of Deputies Saturday brought out considerable general debate relative to the strength of the army and the necessity of maintaining it on a strong fighting basis. General Andre, Minister of War, Col. Roussier, a Republican member of the Chamber, and other leaders of the military element, took an active part in defending the army from criticism. M. Roussier (Radical-Socialist) made a long speech on the heavy financial burden on the maintenance of the army imposed upon the country, saying this would be a great and effective progress, and took the best years of youth of France for military service. Col. Roussier pointed out the dangers surrounding France, and declared that he was at the mercy of a slight adverse incident. Amid much enthusiasm he insisted that the part of wisdom for France was to prepare for all eventualities.

Gen. Andre devoted his attention to the desirability of keeping up the army on a peace footing, so that it would be able to transform itself to a war footing. M. Jaurès (Socialist) repudiated the statement that Socialists are opposed to the army. He said he considered the army to be one of the strongest arms of the republic, and that its first line and the reserves should equal in strength the German army. He said it was necessary to maintain an effective war footing, corresponding to the needs of the republic.

Amid a patriotic demonstration the danger of the army budget was finally adopted.

SPANISH LOOTED HORSE.

The Bold Was the Result of a Lack of Provocation.

The Government has been generally told, saying to the simplicity of the inhabitants, who are fearful of the brigands' reprisals, to pay tribute and slatter the latter. FOR CLERK AND ARTIST WORK.

What is the cause of the numerous railway collisions which have occurred in the last few days? At last, we cannot say, throw some light upon this subject. Some years ago, the locomotive engineers petitioned Mr. W. J. Young for the solution of a sticky labor. Their pleading was that they were overworked and overpaid. They complained that they were not paid as much as they felt their work was worth. They were not paid as much as they felt their work was worth. They were not paid as much as they felt their work was worth.

In the same connection the following from the Montreal Star is given: "The railway men of this country are not only overworked and overpaid, but they are also overpaid. They are not paid as much as they feel their work is worth. They are not paid as much as they feel their work is worth. They are not paid as much as they feel their work is worth."

QUICKLY RELIEVES THE CONSTITUTIONAL CONDITION OF ALL RUMORS AND SICK ANIMALS.

In the winter months, when many people, especially women and children, are confined to close and stuffy apartments, which lack proper ventilation facilities, the blood becomes vitiated, and the system is impeded. The brain is affected, and the result is a general illness, which is the foundation of true health. It produces indigestion, and all the other ailments that result from a diseased kidney.

Certain mechanics criticised the idea because they did not understand art or decoration.

Today THIRD WORK, through our introduction and efforts, are being used very largely, and the same mechanics who protested when the idea was a new one are now, when it has become old and a hack number, counting its praises and advertising it on their own favoring columns.

MISS E. J. JAMES.

For over four years I have been a sufferer from dyspepsia and indigestion. For months at a time I was unable to live on food, and I was a wreck. My friends told me I was going to die. I was so ill. I tried all kinds of medicines recommended for dyspepsia, but got no relief. I was finally induced to try Fowler's Laxative Compound, and from the first I began to feel better. I continued taking it until I was well and strong, and I am happy to say I am completely cured. I can now eat any kind of food I have no distress or pain in my stomach, and my digestion is perfect. I then bought a box of Nosthrup & Lyman's Vegetable Compound, so I got a bottle and when used about one-half the sore was evident signs of healing. By the time that had passed down it had disappeared and my general was improving fast. I was almost a very bilious habit and had indigestion and headache with the stomach affected. But now eating 3 boxes of the Vegetable Compound, the stomach is entirely gone and my health is excellent. I am 68 old. I feel that I am doing better than I ever did and that I am glad for some times after they they are cured. It is by the best health restorer I know."

How Would You Like It

What would you do, if you were a big clothier, and had more stock on hand than you could sell this season. Would you keep your money tied up until next year—let the stock get rusty—let your salesmen get tired of showing it—get tired of it yourself—start next season with a half new stock? or would you say—We made some money last fall—we'll lose a little now; get our money back; bring in some people who have not been buying from us; make them happy; and when they come next year show them something they have never seen before here or anywhere else? You've answered our question. We're after you—not for to-day alone, but for as long as you live. Let us show you some prices that we believe will move the stock. Get your share.

PERSECUTION AND BALLOT BOX KIDNAPING.

The Toronto Globe has at last spoken up to the fact that ballot-box stuffing and perambulation of what is called in Montreal, "intimidation," are serious public no longer are regarded as such.

The fact has been exposed upon it, when the exposing and publishing of the evidence will not affect the House Government. The instances reported in West Huron, West Elgin, West Waterloo, Bedfordshire, North Grey and the purchasing of evidence to prevent the M.P.'s for South Durham and the purchase of evidence to prevent the M.P.'s for the House of Commons, are the same of the House of Commons, but none of them is to be made out of the fact that the perambulation and stuffing of ballot boxes is a crime, and the stuffing of ballot boxes is a crime, and the stuffing of ballot boxes is a crime.

Now, What is Pan-Dried?

"Pan-Dried" is the **Tillson** way of making the best oatmeal in the world. **Tillsons** have the only "Pan-Dried" process in the world. It is **Tillson's** and **Tillson's** only.

"Pan-Dried" is oatmeal dried without steam heat—without smoke—without scorch.

Ever eat porridge that tasted clammy, mushy, insipid—that seemed to fill your mouth with paste—put you in mind of a bill poster's bucket?

Most likely that was a mess of "steam heat" results. Steam heat is liable to make the oatmeal thick, makes that kind of porridge.

Ever "easte" your porridge three or four hours after you'd eaten breakfast?

Faugh! horrible, isn't it?

And you thought it was indigestion—weak stomach—you said oatmeal didn't agree with you, didn't you?

Well, it wasn't weak stomach, but it might have been indigestion—takes a good strong stomach to digest cold or wood smoke.

Now, the old-fashioned oatmeal mill that does not use steam heat, and must not use **Tillson's** Pan-Dried system, uses the "smoke-and-scorch" system.

Tillson's Pan-Dried method heats pure air in one place, blows it after it is heated, scientifically applies it to the oats, and turns out oatmeal that is not mushy or smoky—that cooks up smoothly and deliciously. The kind that "jellies up" around the edge of the bowl.

Old-time Scotch millers knew how to make that kind of porridge, but they could not make any but the smoked-lam variety.

Consequently many folks have labored under the impression that porridge wouldn't agree with them when it was not porridge but smoke that caused the trouble.

There is no smoke in **Tillson's** Oats.

And there are no specks, no hulls, no dust, no dirt—nothing but good, clean, digestible oatmeal in **Tillson's** Pan-Dried Oats.

SPORTING COMMENT.

Things appear to be slightly milder in the hockey situation. It is true that there seems to be no doubt of it) the Prescott team will be flung out of the O.J.A. and the Hamilton given the championship of group 1. We are told that the Prescott team has acknowledged the loss, so it is now settled that Kingston will be Belleville's next opponent, and that the game will be played either on Thursday or Friday night next, in this city. Good. Of course the game with Plattsburgh and Fort Hope were interesting, and we wanted to win them, but if there is one place more than another we have to stick up for, it is our dear old Kingston!

Kingston Week. The Belleville Intelligencer editor has hurriedly taken a few days in view of the coils of fire kindled by the Whigs upon the heels of the Belleville ladies. If a Kingston team goes up there, he promises to let the Belleville ladies have a small-sized slugging.

Navy, you know. The size of the fleet will depend upon the quality of the team sent up.

Mr. E. H. Tupper referred the game at Niagara Falls on Friday night last, between the Falls team and the Montreal team of Toronto. He says the Falls people made a deliberate attempt to lose the game. The Niagara ladies, playing Niagara Falls five goals which they got into the net, scored an easy victory. The Montreal team, which they scored. The latter, however, were the round by 20 goals, so the crooked work was plain.

We are presenting a glimpse of Junior O.J.A. hockey here on Wednesday night, when the Montreal team will play the Kingston team. The work at Ottawa and Montreal was very interesting, and the game was nearly perfect at home, and on neutral ice ought to be about even. May the best team win.

Paris, Feb. 9.—Official news has been received here confirming the report that the Sultan of Turkey has ordered the immediate mobilization of 120,000 troops for a military demonstration in Macedonia. This step is regarded with apprehension by the French cabinet, as being likely to involve complications between Turkey and Austria.

It is said that the Russian and Austro-Hungarian have agreed to a firm alliance to the Balkans, which will be the basis of the new treaty of friendship on administrative and financial reforms in Macedonia. Although France will be a party to the coalition, she will approve of it. It is considered the Sultan's mobilization of such a vast army is clearly an effort to forestall the proposition.

The mobilization of so many troops is being regarded as a danger, especially, as it is said, the soldiers who are to be brought into Macedonia from Asiatic Turkey, are semi-barbarous and are bound to be Christians, which will tend to incite the various sects of Moslems.

It is understood the powers are exchanging views as to the course to be pursued toward the mobilization of Turkey troops. The war will be a duel between Russia and Turkey, but please do not imagine that the result of such a war is a foregone conclusion. Whatever may be the result, the army is difficult.

It is a better army than 35 years ago, and even then it was quite enough to have won the war. The General had a free hand. The Russian army may be larger, but there will be no more fighting men in the line as there will be in the Russian line. The Russian army is not so well equipped as the Turkish army. GARNETT WILL THE ORDER

Mr. George Haldimand, Temiskaming, Feb. 9.—A meeting of the Temiskaming & Northern Ont. Railway Commission was held on Saturday morning, at which Mr. Theodore C. Grant, Vice-President of the Commission, Late Superior County, was present to discuss the position of his company in regard to the construction of the railway.

Mr. Grant stated that the last year the company had been in a very bad financial position, and while there were some prospects for the future, in April, yet the fact that the blowing of the whistle for the railway was not yet decided, could not be relied upon. Search also had been made for the company, but no result had been obtained.

The company has therefore determined to ask the new tenders at once. One of the members said that last night he anticipated no "day in the construction of the railway," means of Mr. George Grant, in his contract. The rails were laid from the station to the end of the line, and it was thought that tenders can be asked from the Government, and still have the rails here by the end of the month.

The original contract was for \$200,000 of 100-pound rails at \$2 per ton, which would be sufficient to lay 60 miles of the main line and five miles of spurs.

"DOES REGENERATION PRECEDE CONVERSION?"

REV. DR. LAMLEY HANDS OUT A FEW REMARKS TO ANGLICAN CATHOLIC LAYMEN.

MEAN.

To the Editor of The Intelligencer:—Sir,—It is not my purpose to become an apologist for Rev. Dr. Lamley. He is undoubtedly free to appear for himself. I wish, however, to call the attention of your readers to the untenable position assumed by him in a communication published in your issue of Thursday, the 15th inst., under the above caption.

When one reads the letter to its close he is not surprised that the author, advanced to a high level in his religious life, should have himself been the victim of a "conversion" of the "old" type. A few years of "old" truth are therein presented. But they are so subordinated to the error and so overlaid with unchristian dogma that the light is unable to diffuse has become utter darkness. The question at the head of the article is not intelligible, inasmuch as it does not define the meaning of the word "conversion."

As everybody knows, this word defines the meaning of the word "conversion." As everybody knows, this word defines the meaning of the word "conversion." As everybody knows, this word defines the meaning of the word "conversion."

that we can claim from him. The only spirit in the only spirit that can give power to the human spirit. It is marvelous that men with "common sense" and an open Bible will still cling to the fiction of the "Church, Catholic and Apostolic," which they call "holy" regeneration. "Water-baptism is a divine ordinance. If it were, then, has Christ died in vain? Baptism with water is only symbolic. It is the outward sign of an inward and spiritual grace." That inward grace is the regenerating of the Holy Spirit. But the application of water and the cleansing by the Spirit are not always identical. The regenerate, however, was baptized, but not regenerated. The regenerate, however, was baptized, but not regenerated. The regenerate, however, was baptized, but not regenerated.

WEEK OF THE MADRAN.

THE ONE HUNDRED PASSENGERS ON BOARD AND ALL THE CREW Landed in Safety.

New York, Feb. 11.—A. K. O'Brien & Company, local agents of the Quebec Steamship Company, have received cables from Hamilton, Bermuda, confirming the Associated Press report of the wreck of their steamer Madras. According to their advice the ship was lost in the Bay of Fundy, about 30 miles off the coast of the island about 3 o'clock. The steamer was bound with only 100 tons of coal on board. The Madras was built in Glasgow in 1878 and is 1103 tons net. She has 29 feet 4 inch beam and is 25 feet deep. She is armed with 10 guns. The Quebec Steamship Company and agents from London.

The Madras has on board about one hundred passengers. The list of the passengers does not include any Canadians. The ship was last seen by the British tugboat, which was in the vicinity of the wreck. The passengers, many of whom were in the ship, were rescued by the British tugboat, and the ship was broken up. The ship was last seen by the British tugboat, which was in the vicinity of the wreck. Putting your money in a Savings Bank is next best to putting it in one of our suits or overcoat. You draw interest on the former; you draw satisfaction and comfort from what you buy here, because it is always the best for the money expended, and that is why we are looked upon as the RESPONSIBLE CLOTHING HOUSE of the City.

NEW SPRING SUITS

You'll like our new spring suits for more reasons than one, but principally because they're good in looks and quality. Of course if you don't care what kind you wear, you can buy an ordinary ready-made suit anywhere and pay as much for it as we ask for one of our finely tailored suits.

BEAR IN MIND

Did you ever notice that every clothing dealer claims to handle the best make of clothing? Now, this may be ONLY ONE BEST and every one knows that this store has the exclusive control of the celebrated Sanford Clothing, which fact is all the argument necessary.

TIMELY TOPICS

The next time any athletic team goes to visit old Kingston they should take Pat Hayes and the guns on the park bench, to protect their selves.

"Where are you going?" said an youngster to another yesterday afternoon. "Down to the Niagara." Was the hilarious reply.

Having failed to settle a little question like the Trent Valley Canal, His Worship the Mayor might now give Mr. O'Brien a hand on that great question, the old cable.

Kingston Whig: Say, where is Belleville, anyway? Some people say it is somewhere west of Niagara. It is about fifty miles west of a place which is chiefly noted for being the seat of the penalitarians, and for the fact that many of the inmates deserve to be in that institution.

Here's a bit of information for it out. Last begins on Wed. and ends on April 11.

In the race for a man no girl likes to admit that she's on the last legs says the Napanee Journal.

If this kind of weather keeps on the leaders may get a second crop of hay.

A worthy correspondence asks: "What would you call a coat dealer who agrees to let you have coat at a certain figure, and then when the price of the water? We'd call him a fool player."

Speaking of winter, now, they ought to be able to break in hockey early in Kingston. They can break saying there, from the Trent Commission to raising hockey players' heads.

MANITOBA LEGISLATURE.
Debate on the Address in Reply has Commenced.

Winnipeg, Feb. 18.—In the Manitoba Legislature yesterday the debate on the speech from the throne continued, the mover and seconder of the Address in reply being Mr. Hugh Armstrong, Portage la Prairie, and Mr. S. W. McInnis, Brandon. Mr. Grey was

THINK IT OVER

EVERYTHING YOU CAN SEE IN ANY RESTAURANT OR CAFE.

A physician puts the query: Have you never noticed in any large restaurant at noon or dinner time the large number of Borey's Digestive Pills at the tables? men whose ages run from 60 to 80 years; many of them bald and all perhaps gray, or some of them.

Perhaps the apostrophe is an omission or it is a mere misapprehension or comment, but nevertheless it is a subject upon which much may be said.

You will notice what these hearty old fellows are eating you will observe that they are not munching from crackers, nor gingerly poking their way through a mass of cold beef, nor are they indulging in the country they seem to prefer a juicy meat or loaf, a goodly quantity of mutton, and even the delectable lobster in its shell. The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food, not upon a diet of crackers and coffee and many other good things are not good for you. The old, healthy-looking individuals are not eating such a diet.

The matter is a matter of life and death. If the stomach receives the natural digestive juices in sufficient quantity, any wholesome food will be promptly digested. If, however, the stomach is weak, and contains food waste material, or if the stomach is dyspeptic, the food after each meal will produce all sorts of ailments, because the food will not be properly digested, and will cause indigestion, flatulence, headache, and other ailments.

Stuart's Dyspeptic Tablets are upon the stomach, and in fact are not strictly a medicine, as they do not directly attack the food, but digest it thoroughly, and thus give a healthy and sound system, an appetite for the next meal.

Of people who are afflicted with ten years' Stuart's Dyspeptic Tablets, knowing them to be perfectly safe to use at any time, and also having heard of the experience of others, are as sanguine against indigestion as any food. The tablets are given in any form, and at all kinds of ages, from the full sized package, and any druggist from Maine to California. His opinion was asked, and he said Stuart's Dyspeptic Tablets is the most popular and economical remedy for any stomach trouble.

Colds. How will your cold be tonight? Worse, probably. It's a cold, a cold, a cold, then bronchitis. Colds always tend downward. Stop this downward tendency quickly with Ayer's Cherry Pectoral.

Mr. Smith anticipates that perhaps new settlers will enter Canada this year. He says: "We want half that number from Britain."

Conrad's Death.
An article is published in Conrad which appears to have been written by a friend. It appears that Conrad had inspired a number of people with a new idea. On one occasion, when on a visit to the city of Montreal, he was asked to contribute to the wealth of the city. He was asked to contribute to the wealth of the city. He was asked to contribute to the wealth of the city. He was asked to contribute to the wealth of the city.

Mr. Robin followed in a strong protestant spirit, saying he was and the opportunity to repeat was not formerly said. He denied that he was the author of the statement, and that the people of Manitoba were willing to accept the statement. He said that they were in favor of the National Policy. He said that he was in protection, and if the United States built up a great navy by their tariff, we could pay them a higher compliment than by copying it.

CLARE BAY'S DEATH

The Jury Find Culpaable Negligence on the Father's Part.
Collingwood, Feb. 18.—The coroner's inquest into the body of Janet Clare was resumed yesterday. The jury said that the death of the child was caused through atrocious poison, but as to how the poison got into the way into the stomach it is then a question. The jury said that the mother was negligent in placing the child in the way of the poison. They also take the opportunity of stating that the mother was negligent in placing the child in the way of the poison. They also take the opportunity of stating that the mother was negligent in placing the child in the way of the poison.

BUYING AND SELLING OFFICES.

Some years ago when the country was ravaged by the old Liberal party, when something like principle guided their public actions, an incident occurred in connection with the purchase of an office which when brought to light was condemned by the leaders of the Liberal party, and the guilty party punished by dismissal from the office on the spot.

Now the ruling powers in Ontario not only wink at such transactions, but approve of them, and lend their assistance to their purchase. In essence which relieves the party purchasing an office from all moral obligations, by obtaining the party from whom the office was purchased, out of the amount promised to be paid.

There are many who will remember the famous McCrear case in a Western County, where the Sheriff bargained with a friend to resign for a certain consideration, provided he, the friend, could get the Government to appoint him. This was accomplished, the facts subsequently ascertained, and the new Sheriff was dismissed for improperly securing the office.

Contrast the wholesale policy of the post, with that proposed by the present man who governs Ontario. A case is now before the Courts which when tried will let some light in upon the nefarious practices of our present rulers.

The facts are that Mr. Smart, who was Sheriff of Leeds, agreed to resign on condition that Mr. Dine, who was then member of the Ontario Legislature and who was to be his successor, should pay him \$2500 per annum. This agreement, it is declared, the Ontario Government included in the commission to Sheriff

The Kingston Review says "The case of trafficking and 'harroting' the public for the purpose of securing the same sort of business was done in Bruce County, but the case was sent into court. The late Sheriff agreed to pay a certain sum to another man in an exchange of positions. The Clerkship of the Sheriff's Court became vacant and the man who had been in the position to help the late Sheriff pay the sum. This they did for a short time, and then they left.

"The term 'harroting' says another contemporary, 'is a new word, derived from the word 'harroting' of Education. The Criminal Code was then amended, with a view to stopping it. But the Code is ineffective and should be further amended. and that a bond for \$10,000 was given amounting to the purchase money to Smart. This sum was paid over a few years after which the fact was discovered that the money had been used to continue payment. Then a scheme was devised by which it was believed, Dine could be relieved of the payment of \$1200 per annum, as provided in the agreement with Smart, and arranged that the Ontario Government sided him in the accomplishment of the swindle for such it was. Dine resigned, and was reappointed, by which means it was believed that the Government would be satisfied. Smart was not now Sheriff under the original agreement, and consequently no longer liable for the \$1200 per annum.

This case does not appear to be the only one which has been brought to light.

The Kingston Review says "The case of trafficking and 'harroting' the public for the purpose of securing the same sort of business was done in Bruce County, but the case was sent into court. Died in Rosmore

A fine old lady, Mrs. Margaret Dickman, died in Rosmore this morning, at the residence of her son, Mr. A. H. Dickman. Mrs. Dickman was a native of Rosmore, and was born in 1815. She was a devoted wife and mother, and was a member of the Methodist Church.

ONE COMMON CAUSE OF HEADACHE

Perhaps the most general cause of headache and pain about the eyes is nasal catarrh. The mucus which is secreted by the nasal mucous membrane, and which is usually discharged by the nose, is often secreted in such quantities as to cause a constant drip down the face, and to irritate the eyes. This is the case with many of our patients, and it is the cause of much suffering. It is the cause of much suffering, and it is the cause of much suffering.

A CHILD'S LIFE

Physicians speak of fat food as "life

food" and say that all children ought to

have it in abundance. They say too, that

weak, thin, nervous children must have fat

food and recommend Scott's Emulsion.

It promptly returns sickly, delicate

children to rosy health. It is the life of

flesh-creating food and keeps the scale of

child-health evenly balanced.

Being prepared for easy digestion,

Scott's Emulsion is readily accepted by the

stomach and quickly passed into the blood.

This commences at once the repairing of

wasted tissues, the enrichment of the blood

and the strengthening of the whole system.

Any child who needs more and better

nourishment than it seems to be getting

from its ordinary food will be greatly

benefited if given Scott's Emulsion.

We'll send you a sample free upon request.

For Quaker Oats is the best oats, chosen from the Canadian harvest fields,—patiently milled at the Quaker mill in Peterborough, free from black specks and hulls, roasted to a rich, nutty flavor and rolled in pure, rich flakes.

Pure when it leaves the mill, pure when you get it,—for it comes in air-tight packages—as safe as if it came in glass.

No other food gives so much all-around strength or keeps the system so pure and strong as oats. No other oats can give so much of this benefit as

Frank Moore, a bartender, was urged with selling liquor to a lad and Fred Mellish, who was under 21, to buy beer. The two boys, though the latter said on Saturday night they did not buy beer, he procured a 12-ounce beer from Moore, paying cents for it.

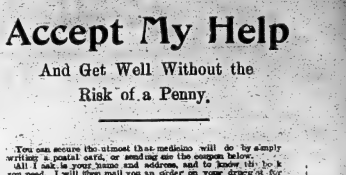

The result of the investigation was

An offer was possible. I tested it thousands of times, in hospitals and homes, in cases as difficult as physicians ever meet. I let the world know that I was not bluffing. I have offered it on terms so fair that no reasonable sick one could neglect it. About 566,000 people have accepted that offer, and I have probably 40 have rejected it. I have no doubt that I will.

My success comes from strengthening the INSIDE nerve. My Restorative brings back this power which alone operates the vital organs.

The common way is to doctor the weak organ itself, and many of you know how temporary a relief results. I give the weak organ power to do its duty, and the results are not only sure but enduring.

In this little troum my Restorative is the quickest help.

Wm. Zimmerman, of St. Joseph, relates an experience with the value of millions of cataracts everywhere. He says: "I had been suffering until it gradually entered my thought and coughed tubes, and finally even my eyes were affected. I was so weak that I was able to keep up and do my day's work. I did not know my suffering began to fail me, and then realized that I must get rid of the cause or lose my position as I was weak and my hearing was absolutely necessary."

Some of my friends recommended an emulsion, another a catarrh salve, but after they were gone I was left alone. There was nothing else, until I heard Stuart's Catarrh Tablets and bought a packet. At first I thought they had deceived me from the start.
